The news

Just came in
From the County of Keck
That a very small bug
By the name of Van Vleck
Is yawning so wide
You can look down his neck.

This may not seem
Very important, I know.
But it *is*. So I'm bothering
Telling you so.

A yawn is quite catching, you see. Like a cough.
It just takes one yawn to start other yawns off.
NOW the news has come in that some friends of Van Vleck's
Are yawning so wide you can look down *their* necks.

At this moment, right now,
Under seven more noses,
Great yawns are in blossom.
They're blooming like roses.
