THE  
DWIGHT HARRINGTON TERRY  
FOUNDATION

LECTURES ON RELIGION IN THE LIGHT  
OF SCIENCE AND PHILOSOPHY

**T**HIS volume is based upon the twenty-sixth series of lectures delivered at Yale University on the Foundation established by the late Dwight H. Terry of Bridgeport, Connecticut, through his gift of \$100,000 as an endowment fund for the delivery and subsequent publication of "Lectures on Religion in the Light of Science and Philosophy."

The deed of gift declares that "the object of this Foundation is not the promotion of scientific investigation and discovery, but rather the assimilation and interpretation of that which has been or shall be hereafter discovered, and its application to human welfare, especially by the building of the truths of science and philosophy into the structure of a broadened and purified religion. The founder believes that such a religion will greatly stimulate intelligent effort for the improvement of human conditions and the advancement of the race in strength and excellence in character. To this end it is desired that lectures or a series of lectures be given by men eminent in their respective departments, on ethics, the history of civilization and religion, biblical research, all sciences and branches of knowledge which have an important bearing on the subject, all the great laws of nature, especially of evolution . . . also such interpretations of literature and sociology as are in accord with the spirit of this Foundation, to the end that Christian spirit

may be nurtured in the fullest light of the world's knowledge and that mankind may be helped to attain its highest possible welfare and happiness upon this earth . . .

"The lectures shall be subject to no philosophical or religious test and no one who is an earnest seeker after truth shall be excluded because his views seem radical or destructive of existing beliefs. The founder realizes that the liberalism of one generation is often conservatism in the next, and that many an apostle of true liberty has suffered martyrdom at the hands of the orthodox. He therefore lays special emphasis on complete freedom of utterance, and would welcome expressions of conviction from sincere thinkers of differing standpoints even when these may run counter to the generally accepted views of the day. The founder stipulates only that the managers of the fund shall be satisfied that the lecturers are well qualified for their work and are in harmony with the cardinal principles of the Foundation, which are loyalty to the truth, lead where it will, and devotion to human welfare."
